

BeNeLux Society for Horticultural Science

Challenges in Northern Wine Regions

9 April 2010 in Remich, Luxembourg

Viticulture in cool climate regions like the BeNeLux, faces a number of challenges for which specific solutions are to be found.

- How will climate change affect the production of grapes?
- What are the most adapted varieties?
- How to cope with pests, in particular with fungal diseases?
- How to improve quality?
- What about alternative markets such as organic viticulture or fungi-resistant table grapes?

The BeNeLux Society for Horticultural Science (BNL-SHS), together with the Administration des Services Techniques de l'Agriculture, the Institut Viti-Vinicole the Société Nationale d'Arboriculture et d'Horticulture du Grand-Duché de Luxembourg (SNAH) and the Centre de Recherche Public - Gabriel Lippmann, has the pleasure to invite you to a symposium addressing these topics. The symposium will be held on Friday, 9 April 2010 at the

CENTRE DE FORMATION ET DE SEMINAIRES (CEFOS)
12, rue du Château
L-5516 Remich
LUXEMBOURG
www.cefos.lu

Programme

8.45	Registration & welcome coffee	12:00	Lunch break
9.15	Welcome of the participants (Leon Wietor, ASTA; Robert Bogers, president of the BNL-SHS)	13.30	Organic viticulture (Serge Fischer, IVV)
9.30	Introduction and Presentation of the Luxembourgish vine region (Danièle Evers, CRP-Gabriel Lippmann)	14.00	Fungi-resistant table grapes and grape juice production (Alfons Klippel, DLR Mosel)
10.00	Impact of climate change on the vegetation in Luxembourg (Jürgen Junk, CRP-Gabriel Lippmann)	14.30	Optical selection of rotten grapes (Matthias Porten, DLR Mosel)
10.35	Coffee break	15.15	Presentation and wine tasting of early ripening traditional and fungi-resistant varieties for cool climates. (Serge Fischer, IVV)
10.50	Impact of the climate conditions on viticulture in the upper Moselle region (Steffi Urhausen, University of Bonn)	15.45	Riesling wine - Influence of the soil and yield on the quality of Riesling wine with tasting. (Dipl. Ing Harald Beck, Bernard Massard)
11.20	Control of grey mold by fungicide and gibberellic-acid inhibitor (REGALIS®) applications in combination with viticultural measures in Pinot Gris, Pinot Noir, Pinot Blanc (Danièle Evers, CRP-Gabriel Lippmann)	16.15	End of the symposium

BeNeLux Society for Horticultural Science

Please register at horticulture@asta.etat.lu and make the bank transfer before 24 March

Since the number of places in the conference room is limited, the registration will be done on a first come, first served basis. The registration fee, which includes lunch, amounts to € 30.-, without lunch € 20. Members of the BeNeLux-SHS will be granted a € 5.- discount. For students, the fee including lunch is € 20.-, or € 5.- without lunch. Please transfer the money to the Post bank account of the SNAH in Luxembourg, IBAN LU35 1111 0119 9968 0000, the BIC/SWIFT code is CCPLLULL. The address of the Post bank is P&T Cheques Postaux, L-1090, Luxembourg.

If you have some special dietary restrictions for lunch please indicate these on your registration form.

For those arriving by public transport

If you arrive at Luxembourg City railway station, take the bus line 175 to Remich at the bus stop No 4 on the left as you exit the train station and get off at the terminus bus stop "rue de la Corniche", which is about 100m from the CEFOS. You can find the bus schedule at www.cfl.lu under "Les bus CFL".

For those arriving by car

If you are planning to come via the E411/A1, please note that traffic in the morning is likely to be dense around Luxembourg city.

For those wishing to extend the wine experience, there is a traditional wine market in Grevenmacher.

For those who need accommodation, here is a non-exhaustive list of places to stay in or near Remich:
